EXPERIENCE

Major League Hacking

Engineering Fellow

Remote

January 2021 – April 2021

- Selected as one among the 150 M.L.H Fellows, out of 43,000 Applicants.
- Used React and TypeScript at a scale to build devtools and data ethics products.
- Worked in a team to compete in four global hackathons.
- Won two sprints globally at first prize.

Hack The Mountains

Hackathon Manager and Developer Team Lead

Remote

December 2020 – April 2021

- Engineered a Hackathon Website from development to production, and lead the team of developers which generated 80 percent increase in traffic and created a promising revenue model.
- Created utility software and dashboard software for Hackathon including mentor support, query system, speaker management and workshop alerts. Contributed in streamlining recruiting panel as a core advisor.

PROJECTS

CryptoDrive: Decentralized File storing and sharing service[ReactJS, Node, IPFS, Solidity,]

March 2021

- Worked on integration of smart contracts written in Solidity with Web3 and React Client.
- Implemented Lossless data compression algorithms to make things optimized on client side.
- Brainstormed and successfully, managed and developed the product.
- Worked in a dedicated team of 3 members, and reviewed Pull Requests and used Team Collaboration tools.

Web Terminal : Linux Simulation on Web Browsers[React, Data Structures]

December 2020

- Empowered beginners to get started with Linux Commands, via Web Terminal, a simulated terminal on browser.
- Developed File Service System, using Tree Data Structures.

CertiGen [NodeJS, JIMP and Postman]

October 2020

- A devtool for Microsoft Student Ambassadors, to create certificates in seconds.
- Actively used by 1000+ Student Ambassadors, for their events and quick certificate generations.
- Using Postman Monitor and Newman Integrated to perform health checks.

TECHNICAL SKILLS

Languages: C++, JavaScript, TypeScript, HTML/CSS

Frameworks: React, Node.js, Airtable API, Material-UI

Developer Tools: Git, Docker, VS Code, Azure Web Apps, AsyncAPI, OpenAPI, Postman

Libraries: React-Router, MongooseJS, Newman

AWARDS AND ACHIEVEMENTS

Global Hackathon Winner at MLH Fellowship for CryptoDrive and PodFolio, Selected as M.L.H Fellow out of 43,000 applications, LinkedIn Top 1 percent Engagement, Postman Certified Expert, Microsoft Learn Student Ambassador, Guest Speaker at University of Texas, UC Berkeley, Georgia Tech on API Literacy and Postman.

VOLUNTEER EXPERIENCE

Postman Student Leader: Empowered Students to get started with API Development skills. **Featured on Postman Inc**

Microsoft Student Ambassador: Delivered sessions in various international hackathons to make people achieve more using Microsoft Technologies

EDUCATION

Chandigarh University

Junior, B.E in Computer Science and Engineering

Mohali, Punjab

August 2018 – Expected July. 2022
